## 80's T-Shirt - Meet and Greet

Since we all grew up in the 80's, here is your challenge:

Find a T-Shirt to wear to the Meet and Greet that screams the 80's! You have a full year to find one and there are LOTS of online stores that have ones to buy.

We will have a vote that night and award a special prize to the winner!

I predict that Magoo and Pat will be wearing AC/DC T-shirts!

## Stanley Cup Fever in '87:

The Oilers and Flyers met in the finals for the second time in three years. This time, Edmonton was the regular season champion with 50 wins and 106 points, and Philadelphia was second with 46 wins and 100 points.

This was a re-match of the 1985 Stanley Cup Finals, where the Oilers beat the Flyers in five games. Unlike the 1985 final, this series went to seven games.

Edmonton took the first two games at home, then split in Philadelphia. However, the Flyers won the next two games, one in Edmonton and one back in Philadelphia by one goal, to force a deciding seventh game. Edmonton won game seven to earn its third Stanley Cup in four seasons.

During the Stanley Cup presentation, Oilers captain Wayne Gretzky would give the Cup to Steve Smith, who one year earlier scored on his own net that led to their downfall against the Calgary Flames in the Smythe Division Final. Ron Hextall would receive the Conn Smythe Trophy for his efforts. Many people consider this to be one of the greatest Stanley Cup Finals of all time.

## Classmate Bio – Debbie (Healey) Wheaton

Hey Everyone!

....or should I say "*Howdy Folks*" since it is **Stampede Time** again here in Calgary, the place I've called home since 1993. I flew to Calgary for a summer holiday - a little R & R after finishing my Teaching Degree at MUN. Well, 18 years later, that 'summer visit' is still going strong!! In 1998, I married Jason Wheaton, also from Nfld., and we have two beautiful children, Jordan and Isabella. (who refer to themselves as 'New Bertans', because they are born in Alberta but they have Nfld. Blood!!) I've spent 12 years teaching Grades 1-3 in the Catholic School System, and just this past couple of years, I've somewhat eased into semi-retirement. Simply put, my children keep me *soooo* busy with their extra-curricular activities that I have decided to work as a Substitute teacher rather than full-time. Now I can choose the days I want to work and keep up with my side job of being a chauffeur. (lol)

Like John McHugh, I, too make the pilgrimage back home every year. We have built a summer home in Musgrave Harbour and spend about 5 weeks there every July or August. The kids LOVE it there and I love the fact that there is no traffic and I can decompress from big city life.

I'm looking forward to the "BIG 2-5" next summer. It's amazing how quickly time escapes us!! I still think I'm twenty-something, but my body tells me otherwise!!

Here's to our 25 years that's come and gone!!  
Cheers!!! Debbie

## Classmate Bio – Kelly (Paddick) Aiello

Hello Grads of 1987!

I am seriously in denial that it has been almost 25 years. Really, aren't we all still 29? I have been living in Calgary the last 13 years and am enjoying the west other than being landlocked. The ocean still calls my name.

I met my husband of 11 years at TELUS where we both worked in various management positions until 7 years ago when we resigned and opened up our own business. We haven't looked back since. I have two children, Braeden (10) and Shae (5) who are the light of my life and are the biggest contributors to my gray hair!

Some things in life never change as I still love to hang out with great friends, share a good laugh and a sociable or two. I am looking forward to seeing you all next summer. Until then, keep safe and healthy.

Regards, Kelly

## Corduroy Brook Nature Trail

The Corduroy Brook Nature Trail is constructed along the course of Corduroy Brook. The trail is primarily constructed on flat terrain, which makes it easily accessible to people of all ages and abilities. There are many loops incorporated along the route to give users an option in terms of the distance they wish their stroll to be. Along the entire trail system there are rest areas, picnic areas, camp sites, playgrounds, shelters, outhouses, and other amenities. There are also interpretive signs providing information on various nature related themes.

The trail's surrounding landscape varies, encompassing dry and wet marshes, brooks, ponds, regenerating forests areas, and open spaces. This is a unique attribute amongst trail systems.

In total the trail system is over fifteen kilometers in length. This includes over eight kilometers of fully accessible trails, and another seven kilometers of improved hiking trails.
